Commuters Advised to Plan Ahead For Construction Closure of the I-405 Freeway

Beverly Hills, CA – Plan ahead, avoid the area or stay home the weekend of July 16-17, is the message Metropolitan Transit Authority (Metro) officials are sharing with commuters who travel the I-405 freeway.

Beverly Hills residents and businesses should note that traffic conditions on local streets and freeways are expected to be significant. Commuters are advised to use alternate routes during the 53-hour closure.

The Mulholland Bridge must be removed and rebuilt to accommodate the widening of the I-405 freeway as part of the 10-mile northbound carpool lane construction plan. The construction will be in two phases, with another freeway closure expected next year.

For additional information about the I-405 freeway project or alternate routes, visit www.metro.net/405.
